DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species I (figure 1), claims 1-10, 13-21, and 24 in Paper No. 9 is acknowledged.

In addition, Claims 6, 10, 13-21, and 24 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species II and/or species III, there being no allowable generic or linking claim.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the integration of the dispensing system, the camera, and the personal viewing station, into a single pod must be shown or the feature canceled from the claim 4. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3651

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 5, 7, 8, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Brown 5,903,465.

Brown '465 discloses a liquid cosmetic dispensing system per claimed invention comprising: a cosmetic dispensing system (figure 1); a computer 26 for interacting with a retail customer to select a liquid cosmetic formulation and communicating information about a selection for use in controlling said dispensing system. The dispensing system includes a plurality of chambers (figures 2 and 3) each having an outlet with a nozzle 10. The dispensing system is operated manually or automatically (column 3, lines 50-55).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-3, 5, 7-9 rejected under 35 U.S.C. 103(a) as being unpatentable over Brown 5,903,465 in view of Lombardi et al. 6,177,093.

Brown '465 discloses all elements per claimed invention as explained in paragraph 4 above. However it lacks a personal viewing station and a camera for interfacing with a customer in providing virtual feedback to a user.

Lombardi '093 discloses a customized cosmetic system at a point of sale. The system comprises a camera (70, figure 9) and computer (74) having a viewing screen (76). Said system provides virtual feed back as to how a customer would look with different colored cosmetic products (paragraph bridging columns 5 and 6). Such feature also enables a customer to modify a color that is best suited for each individual's preferences.

It would have been obvious for a person with ordinary skill in the art, at the time the invention was made, to have provided to Brown '465 customized cosmetic system with such camera and computer system, as taught by Lombardi '093, because it provides visual feed back as to how a customer would look with different colored cosmetic products. Such feature also enables a customer to modify a color that is best suited for each individual's preferences.
